

419 Roma - Piazza S. Pietro

Basilione Ricci, Via Firenze, Rome.
21.9.51.

Many thanks for your card which
picked up to-day at the Central
Office. We are leaving here on Sunday
expect to be back in Florence all
Wednesday. Hope you got our
despatched from the Vatican Post Office
to-day. Yesterday we saw the ancient
fortress of San Angelo, the round building in
the top middle of this card, which dates
from the time of Hadrian. We also saw
the Coliseum & the ancient classical
forums, temples, etc. which have been
excavated & now extend over a large
open space in the city. This morning we
saw the very imposing church of St. Peter's,
& visited also the parts of the Vatican open
to the public including the famous
Sistine Chapel. This afternoon we saw
the church where the chains of St. Peter
are kept. On this card you see the big
space in front of St. Peter's with the Vatican
buildings in the bottom
left hand corner. At the top is the River
Tiber. Much love from Mrs & Joan
