FIRENZE

Palazzo Vecchio

We have come here

this morning over the Mugello as
passo after crossing the Rubicon
once again. The scenery was
magnificent at 3000 feet but the
ride is a little hairraising but
wonderful. We have already visited
La Chiusa di S. Croce had our lunch
now are preparing to enter the
Leffozzi Gallery afterwards we have
two hours to spare & will see the
Ponte Vecchio at close hand &
various other monuments in the
City. We had a most pleasant
time in Urbino yesterday.
