

DOLOMITI di BRENTA
(Trentino) Sci-Alpinismo

23/1/79

The hotel we are staying in is small but very comfortable and the food most satisfactory. There are five separate skiing areas here, and a choice of 28 lifts, although not all are open. The snow is quite good but we could do with some more as there are some exposed rocks on the pistes. To-day, it has been rather warm, with some drizzle on the lower slopes. We hope it will turn colder.
